EDUCATION

Institute of Aeronautical Engineering <i>B.Tech in Computer Science(Cyber Security)</i>	Expected Graduation-2027 CGPA: 9.27
Vector Junior College <i>Intermediate</i>	2021 - 2023 Score: 969/1000
Sri Vignan High School <i>SSC</i>	2021 GPA: 10.0

TECHNICAL SKILLS

Languages	Java, Python
Web and Backend	HTML/CSS, Javascript, React.js, MySQL
AI/ML	RAG, LLMs, Natural Language Processing, Vector Embeddings
Security Tools	Nmap, Burp Suite, Metasploit, OWASP ZAP, Nikto, Wireshark
Version Control	Git, GitHub, VS Code

INTERNSHIP

Institute Of Aeronautical Engineering, Hyderabad <i>Summer Research Intern</i>	April 2025 - June 2025
--	------------------------

- Designed and implemented a penetration testing framework using the five-phase methodology with tools like Nmap, Nikto, enum4linux, and Metasploit. Developed a custom CVSS-based vulnerability scoring model to prioritize threats. Enhanced risk-based mitigation and security assessment strategies.

PROJECTS

AI College Helpdesk Agent	Feb 2026 - Present
----------------------------------	--------------------

- Developed an AI-powered College Helpdesk Agent that leverages Natural Language Processing (NLP) to automatically respond to student queries regarding admissions, courses, schedules, and campus services, thereby enhancing support efficiency and reducing response time.

Intelligent Conversational AI Platform Using Large Language Models (Github)	Dec 2025 - Feb 2026
--	---------------------

- Developed an Intelligent Conversational AI Platform using Large Language Models (LLMs) and the MERN stack to enable context-aware, human-like interactions. Integrated OpenAI APIs and MongoDB for intelligent response generation, conversation management, and persistent chat history storage.

Enhancing Threat Hunting through DNS Traffic Monitoring (Github)	Sep 2025 - Dec 2025
---	---------------------

- Built an ML-driven DNS traffic monitoring system to detect tunneling, malicious domains, and data exfiltration, and integrated it with SIEM to support real-time threat hunting and automated incident response.

CERTIFICATES

Certificate on Training on Cybersecurity- Paloalto Networks	July 2025
Certificate on Salesforce- Salesforce	May 2024

CODING PROFILES

[Leetcode](#) : Solved 255 problems and have 2 Badge.

[Codechef](#) : Solved 310 problems and have a rating of 1400.

[GeeksforGeeks](#) : Achieved a coding score of 1003.
